THE MATTRESS FACTORY

Pittsburgh

1990

The Mattress Factory Museum exhibited *Plain Air* by Dove Bradshaw, June 7-August 9, 1990. A mated pair of roller pigeons was introduced into 1414 Monterey Street Building. A 48 inch bicycle wheel was hung from the ceiling and directly below it on the floor was set a 54 inch target. The birds hatched two eggs. The young grew to adult size by the time the family was returned to the breeder.
